SEPTEMBER MEETING

Joint meeting with the CMU Geology Students

WEDNESDAY, SEPTEMBER 15, 2021

7:30 PM

Weldon Lecture Hall

(Room 131 in the Wubben-Science Building)

Dr. Vince Matthews

State Geologist of Colorado (Retired)

Will Speak On

“The Wonders of Colorado’s Glacial Landscape”

Guests Are Always Welcome

Abstract Below

The Wonders of Colorado's Glacial Landscape

The manuscript of a new book on the fascinating features and landforms found in Colorado's glacial landscape is the culmination of a 31/2 year journey. This talk will include a potpourri of some of the more interesting glacial, periglacial, proglacial, and paraglacial features explored on jaunts around Colorado.

Dr. Vince Matthews retired as Director of the Colorado Geological Survey and was the State Geologist of Colorado. He taught geology at six institutions of higher education and held tenure at two. Vince is the author of the multiple award-winning book "*Messages in Stone: Colorado's Colorful Geology*" and has just completed the manuscript for "*Land of Ice: Jaunts into Colorado's Glacial Landscape*."
